James Allen is a professor at Arizona State University. He has won numerous honors including several study sections with the National Institutes for Health and was selected for Who's Who Among...

### Biophysical Chemistry - James P. Allen - Google Books

Biophysical Chemistry presents physical chemistry through the use of biological and biochemical topics, examples, and applications to biochemistry. It presents a rigorous, up-to-date treatment of the material without presuming a strong prior knowledge of math theory. Necessary calculus models are laid out in a step-by-step fashion for students less confident in their math abilities.
