maximize the bottom-line potential of any high-volume route. It's premium value, delivered, for operators and passengers. That's a better way to fly.

Boeing: 747-8

The Boeing 747 is a large, long-range wide-body airliner and cargo aircraft manufactured by Boeing Commercial Airplanes in the United States. After introducing the 707 in October 1958, Pan Am wanted a jet 2½ times its size, to reduce its seat cost by 30% to democratize air travel. In 1965, Joe Sutter left the 737 development to design the 747, the first twin aisle airliner.
