Internet Gateway /Internet Router / 4-Port Giga ... - Leviton

We recently installed the 47611-GT4 (v2) router to terminate a cable modem. We opted to use the default settings and make no configuration changes. Our clients received IP addresses within the 192.168.0.x space, however, the client's DNS server IP address setting was 192.168.1.1. Strange thing is that this IP address does not exist.

47611-GT4 Router (Version 3) DNS Settings | Leviton Online ...

These instructions pertain ONLY to Version 3 of the 47611-GT4 Internet Router. To determine which version you have, click here. Important note: Most DSL modems have a built-in router functionality. In most cases, adding a second router (such as a Leviton router) will cause an IP conflict, and can lead to network errors.
