Human evolution

A stone wall is the only thing that will stop the direct man of action if he is bent on revenge, but the Underground Man resents the implications of the stone wall; to him, the wall represents mathematics and deductions of natural science. The Underground Man dislikes both the laws of science and the direct man's ready acceptance of them.

Section 3 - CliffsNotes

C.J. Thomsen considered the Stone Age to be a time when most technology and tools were made of stone. The Stone Age was part of the three-age system which divides the human story into the Stone Age, the Bronze Age, and the Iron Age. The Bronze Age is the period directly succeeding the Stone Age.

The Stone Man - A Science Fiction Horror Novel

Homo habilis ('handy man') created stone tools called Oldowan tools. Homo ergaster lived in eastern and southern Africa about 2.5 to 1.7 million years ago and used more diverse and sophisticated stone tools than its predecessor, Homo habilis, including having refined the inherited Oldowan tools and developed the first Acheulean bifacial axes.

Prehistoric technology - Wikipedia

A Stone Age man has been given a very modern makeover thanks to facial recreation technology. In 2012, archaeologists uncovered an underwater Stone Age burial site in Motala, Sweden dating back 8,000 years. The site contained the skulls of 11 adults and one infant, but only one adult and the infant had intact jaws, Live Science reported.
