Wealth And Power China S

"In Wealth and Power, their crisp and comprehensive introduction to the history of modern China, historians Orville Schell and John Delury present us with the historical background we need to understand the driving mechanism that lies at the center of China today. By no longer presenting China's past two centuries as a record of recurrent failures and humiliations, they give us a portrait of a nation in the making, and of leaders with the skills and determination to redirect China's ...
